

VIRTUAL RESEARCH IN ACTION

Did you know fish can help us answer important questions about human health-disorders?

Join Robert Kozol, Ph.D., as he talks about how the evolution of blind Mexican Cavefish behavior can unlock secrets behind a person's brain activity and sensorimotor functions.

Linking Genes, Brains and Behaviors in Fish to Human Health

Presented by Robert Kozol, Ph.D.,
Postdoctoral Fellow, Department of Biological Sciences,
Harriet L. Wilkes Honors College, and Research Assistant
in Charles E. Schmidt College of Science

**1 – 2 p.m. EST
Thursday, Oct. 21**
